MOVIE TICKET BOOKING SYSTEM - TEST RESULTS
=====

>>> TC01: Successful booking
Scenario: Selecting an available seat, payment succeeds.
Actual Result: Seat A1 was successfully selected. Payment was processed. Booking status is CONFIRMED and 1 ticket was gbooked by the first customer.
Status: [PASS]

booked by the first customer.
Status: [PASS]

>>> TC03: Payment failure
Scenario: Payment is rejected during confirmation.
Actual Result: The payment declined. Booking status changed to FAILED and absolutely no tickets were generated.
Status: [PASS]

>>> TC04: Cancellation with refund
Scenario: An eligible cancellation changes booking status and releases the seat.
Actual Result: Booking was successfully cancelled. Refund was generated, and Seat A1 was released back to the system.
Status: [PASS]

>>> TC05: Cancellation not allowed
Scenario: Cancellation is attempted but policy rejects it (no refund).
Cancellation policy denies this cancellation. No refund.
Actual Result: The cancellation policy denied the request. Booking remains CONFIRMED and nbooked by the first customer.
Status: [PASS]

>>> TC03: Payment failure
Scenario: Payment is rejected during confirmation.
Actual Result: The payment declined. Booking status changed to FAILED and absolutely no tickets were generated.
Status: [PASS]

```
>>> TC05: Cancellation not allowed
Scenario: Cancellation is attempted but policy rejects it (no refund).
Cancellation policy denies this cancellation. No refund.
Actual Result: The cancellation policy denied the request. Booking remains CONFIRMED and nbooked by the first customer.
Status: [PASS]

>>> TC03: Payment failure
Scenario: Payment is rejected during confirmation.
Actual Result: The payment declined. Booking status changed to FAILED and absolutely no tickets were generated.
Status: [PASS]

>>> TC04: Cancellation with refund
Status: [PASS]

>>> TC06: Same seat, different shows
Scenario: A seat booked for one show is still available for another show.
Actual Result: Seat A1 was successfully booked for the 9:00 PM show even though it was taken for the 6:00 PM show.
Status: [PASS]

>>> TC07: Invalid seat
Scenario: Trying to select a seat number that doesn't exist.
Error: Seat Z9 doesn't exist on this screen!
Actual Result: The system immediately rejected the seat 'Z9' because it does not exist in the screen's layout.
Status: [PASS]
